

David Muñoz Peña

Software engineering student

ABOUT ME

I am a Software engineering student who has passion for videogame developing. My dream is working in the videogame industry.

During my free time you can find me painting, reading a good book (Short stories are my favorites), enjoying an issue of "Hellboy" or boxing.

I used to play football (the one where you tackle), I love working in a team and eating tacos.

EDUCATION

- Studied High School at "Escuela Preparatoria Dos"
- Cambridge FCE certificate
